ABOUT ME

Computer Science and Engineering student and MERN Stack Developer passionate about turning ideas into impactful digital experiences. Experienced in building web applications and contributing to open-source projects, with a strong interest in problem-solving, collaborative development, and continuous learning. Previously served as a Google Student Ambassador, engaging with developer communities and exploring emerging technologies. Currently expanding my knowledge of Data Science.

EDUCATION

NIST UNIVERSITY *2024 - 2027 (Expected)*
B.Tech in Computer Science and Engineering | CGPA: 7.5 / 10

UMA CHARAN PATNAIK ENGINEERING SCHOOL *2021 - 2024*
Diploma in Computer Science and Engineering | Average: 75%

DAV PUBLIC SCHOOL *2009 - 2021*
CBSE, Class X | Percentage: 69.6%

SKILLS

- Python, JavaScript
- React.js, HTML5, CSS3, Tailwind CSS
- Node.js, Express.js REST APIs
- MongoDB, MySQL
- Git, GitHub, VS Code
- Data Science (learning)

PROJECTS

NEXUS – Enterprise Data Intelligence & Decision Platform *2026*

- Engineered an end-to-end data pipeline covering ingestion, profiling, validation, cleaning, transformation, storage, and anomaly detection using Python and FastAPI.
- Generated data-quality scores, KPIs, and anomaly insights to answer: can we trust this data before using it for analysis and decision-making?
- Implemented JWT authentication for 100+ test users and delivered insights through secured REST APIs and a React.js enterprise dashboard, containerized with Docker.

Tech: Python, FastAPI, PostgreSQL, React.js, REST APIs, JWT, Docker.

ShopSense AI – AI-Powered Semantic E-Commerce Platform *2026*

- Built a semantic e-commerce platform enabling natural-language product search with Gemini Embeddings and MongoDB Atlas Vector Search.
- Managed a MongoDB database of 1,000+ records and improved query efficiency by 10%, replacing keyword-based matching with meaning-based retrieval.
- Integrated an OpenRouter-powered AI Shopping Assistant that generates concise AI insights for every product.

Tech: Next.js, MongoDB, Vector Search Fundamentals, Gemini Embeddings, OpenRouter LLM.

Startup Idea Evaluator *2026*

- Developed IdeaLens AI, an AI-powered platform that evaluates startup ideas on market potential, feasibility, strengths, risks, and an overall success score.
- Designed a structured evaluation framework returning detailed scores, reasoning, and improvement suggestions; built responsive React.js UI components that increased user engagement by 25%.

Tech: React.js, Vite, JavaScript, Machine Learning.

EXPERIENCE

Web Bocket Software Pvt. Ltd. – Web Engineering *Bhubaneswar*

- Built and deployed 5+ full-stack MERN web applications with JWT/Firebase authentication, improving efficiency by 30%.

Open Source Contributor – GSSoC & SSOC *2026*

- Contributed to multiple open-source projects with several pull requests merged and appreciated by mentors; collaborated closely with maintainers on issues and code reviews.

Google Student Ambassador (System Track) *Sep 2025*

- Represented Google-led technical initiatives at NIST University, Berhampur; organized workshops on Web Development, AI, and Cloud; attended GDG Meet: “Google Cloud - Build with AI Code for Communities,” Bhubaneswar.

Hackathon Participation *2026*

- Finalist at Hacksagon 2026 (ABV-IIITM Gwalior); participated in Pravah 2026 (IIT Bhubaneswar) and GIET Bhubaneswar Hackathon; selected at college level for Smart India Hackathon; applied Git, GitHub, and team collaboration.

Academic Research Project *2026*

- Co-authored a research paper, “Ethical Hacking: Principles, Methodologies, and Security Impact”, on penetration testing frameworks and ethical boundaries, as an academic assignment guided by CSE faculty.

ACHIEVEMENT

- Developed and deployed 5+ full-stack web applications using the MERN stack, improving end-to-end development efficiency by 30%.
- Implemented JWT/Firebase authentication for 100+ test users and maintained 50+ Git commits across projects with clean version control practices.
- Finalist, Hacksagon 2026, ABV-IIITM Gwalior – shortlisted for the final round after building and presenting a working project as part of a team.
- Selected as Google Student Ambassador (System Track) and Committee Member (Sep 2025 – Jan 2026) to support student engagement with Google technologies.
- Open Source Contributor, GSSoC & SSOC 2026 – multiple pull requests merged; award recipient at NIST IDEATHON.
- Selected as Intern at Web Bocket Software Pvt. Ltd., Bhubaneswar.
